Dear Parents/Carers

If you would like to record any of the tasks set, you are welcome to use the book we have provided for your child.

I understand this is a huge change for everyone, which comes with a lot of uncertainty and anxiety. Each family will have their own anxieties and challenges through this time, where your children will need to feel comforted and loved. Don't have arguments with your children about not following the school timetable or not wanting to do a task set or put pressure on yourself trying to get everything completed. Your child's well-being and mental health is important through this tough time and how they feel during this will stay with them. Please remember to sing, dance, read a story, spend time as a family, play a game, draw, paint, bake, play outside and go for walks if you can, watch a film, do a science experiment, smile, have fun and laugh.

Thank you for your support.

Mrs Collins
