PE message from Joe Wicks “Hello everybody, I’m Joe Wicks The Body Coach and I’ve got an exciting announcement to make. ‘Starting Monday, every single day from Monday to Friday I’m going to do a live workout called PE with Joe on my Youtube Channel, TheBodyCoachTV. ‘It’s a workout specifically designed for kids because when the schools are closed there is no PE. Don’t worry, I’ve got you – I’m going to take this over. ‘I’m going to get your kids moving, feeling energised, positive, optimistic. So tune in Monday morning 9am and every day Monday to Friday”

For some light entertainment if you type in Google ‘Live zoo cams’ you can go to zoos and watch animals live.

Paper-Mâché

Paper-Mâché Piggy Bank

You will need:

- One balloon for each piggy bank
- A lot of old newspaper
- Paper egg box (plastic ones won't work)
- Masking tape
- Adhesive; PVA-water mix, wallpaper paste or "flour paste" (mix 1 cup of flour into 1 cup of water until the mixture is thin and runny. Stir into 4 cups of boiling water. Simmer for about 3 minutes, and cool)
- Pink paint (or another colour if you want to be original) and a brush or pink tissue paper
- One pink pipe cleaner (again, another colour can be used)
- A sharp knife
- Plastic 'googly' eyes (optional)
- Felt-pens/markers

It is also a good idea to cover your work area with a waterproof covering!

- Blow up a balloon and tear a newspaper into strips of about 1 inch wide.
- Prepare the adhesive and dip each strip into it. Wrap around the balloon.
- Have at least two to three layers surrounding the balloon, allowing it to dry after each layer (this may take a while). When it is completely dry, pop the balloon with a needle.
- Separate 5 egg box sections (for the legs and snout). Use masking tape to attach them to the body.
- Paint the pig or use tissue paper. (For the tissue paper coating, tear into small pieces then cover the pig with a very thin layer of the flour-water glue. Put the tissue paper pieces on the pig (you may need to add a little more glue occasionally) until you have a nice overall colour covering.)
- Allow it to dry completely and then, using a sharp knife, make a small hole at the tail end of the pig and insert a pipe cleaner into the hole, then shape the pipe cleaner into a spiral for the tail.
- Draw on some eyes or use plastic 'googly' eyes if you have any.
- Draw two nostrils on the snout.
- Along the top of the pig's body, carefully cut a slot large enough to fit any coin.

Remember to never leave your child unattended.

Some craft supplies can be harmful if not used under an adult's supervision.
