'For Learning That Lasts A Lifetime'

8th March 2024

Dear Parents/Carers,

Science Week: 11th – 15th March – Time

Next week is **British Science Week** and we will be celebrating this in school with all things science! The theme of the week will be **'Time'**. The children will be taking part in activities throughout the week planned to get the children excited and engaged about science. Please look at the British Science Week website for more information:

[Homepage - British Science Week](#)

Throughout the week, we will also be exploring the theme of **'Smashing Stereotypes'** where we will be celebrating diverse people and careers in science and engineering.

Science Week will be a great opportunity for science to take centre stage and for the children to get involved, and really embrace how exciting science can be. We hope that these hands on experiences will inspire children further in their love of learning and interest in Science. Furthermore, we hope it will raise the profile of science within our school. We trust that you will feel as excited about the week as we do in school.

We're all looking forward to an exciting science week!

Yours sincerely,

H. Moloney

Miss H Moloney

Science Co-ordinator
