

What's for Dinner?

Sheep

Guinea pig

Snail

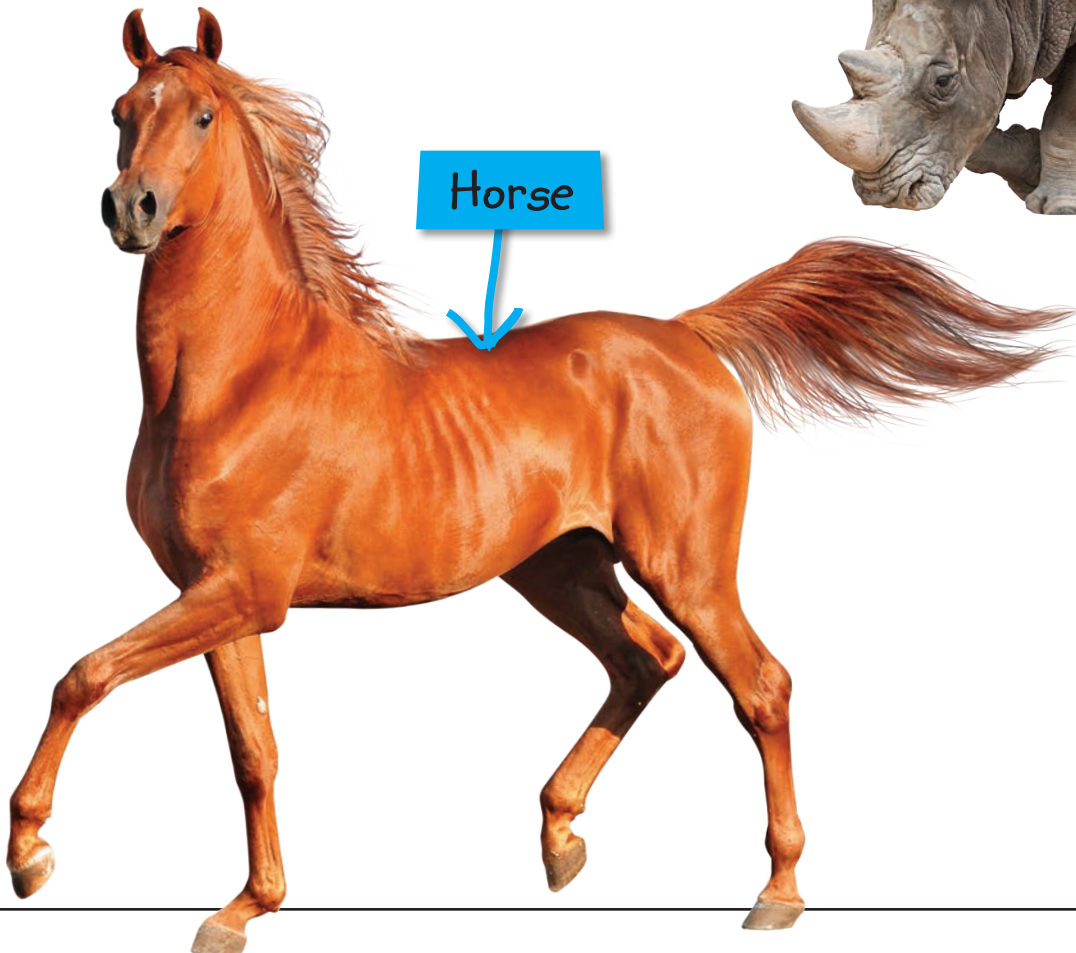

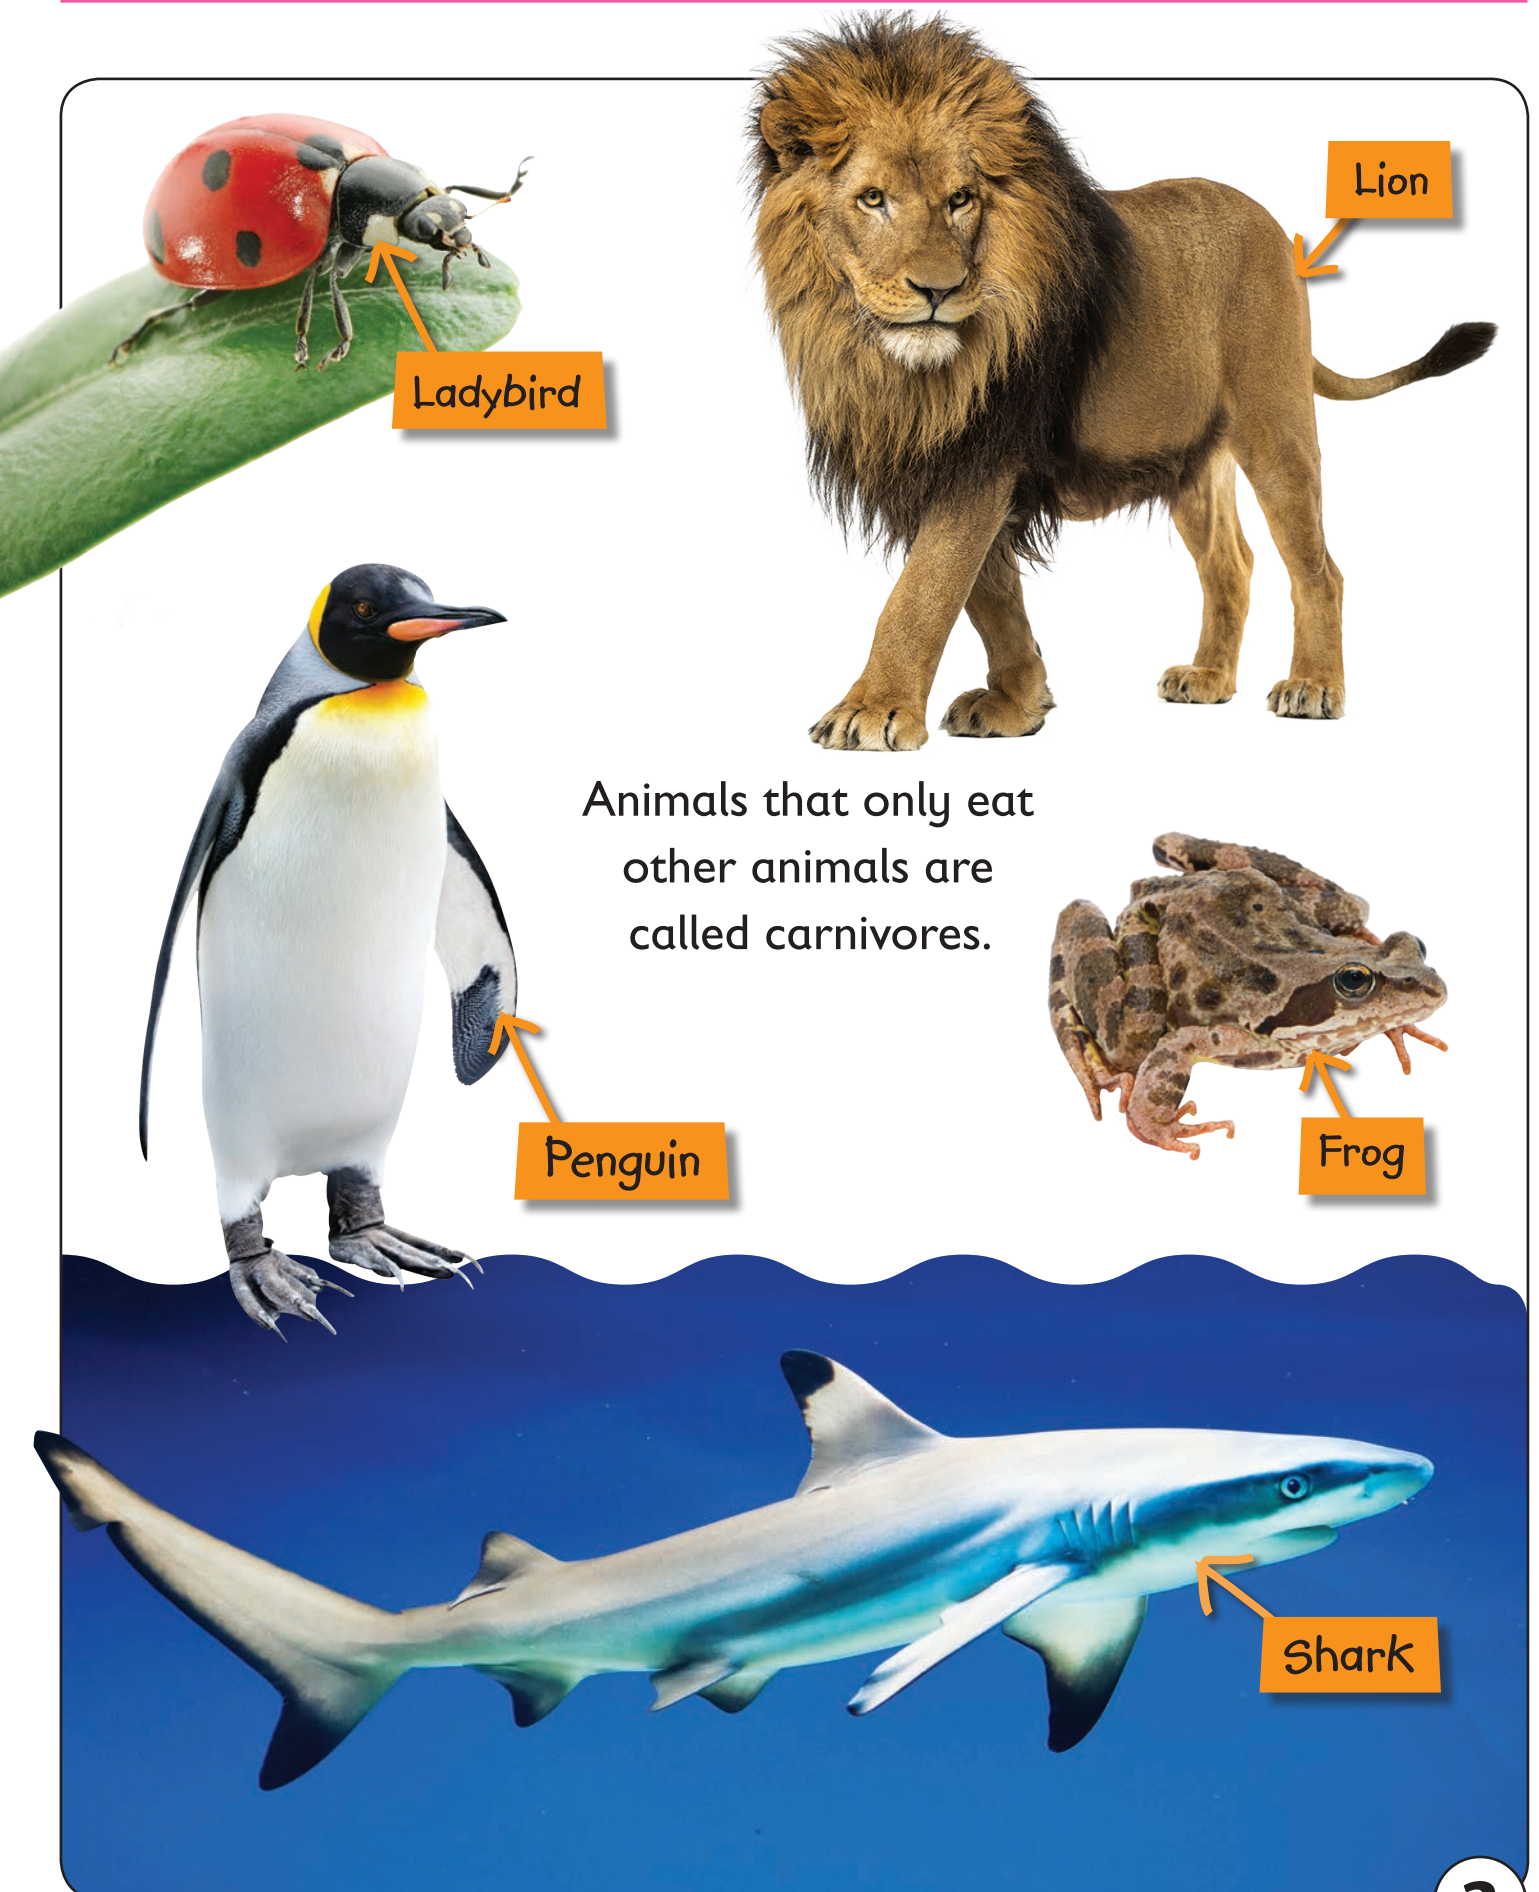

Animals that only
eat plants are
called herbivores.

Rhino

Horse

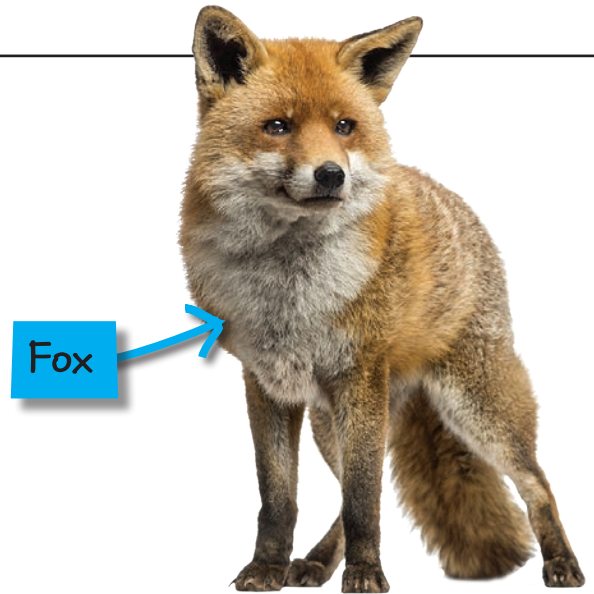

Robin

Fox

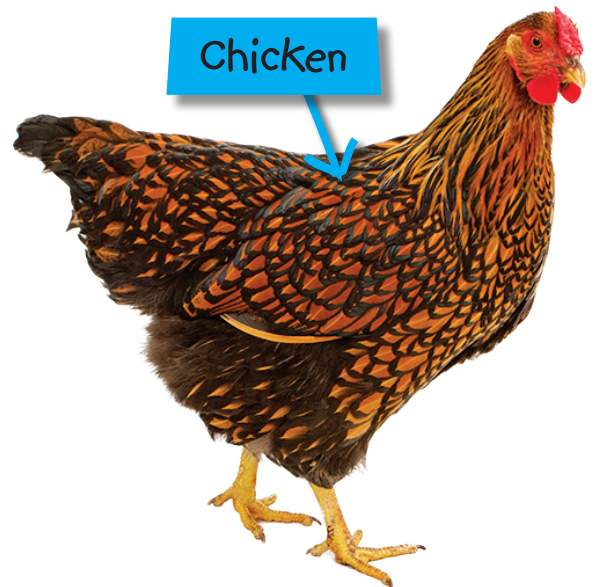

Some animals eat plants and meat.
These animals are called omnivores.

Panda

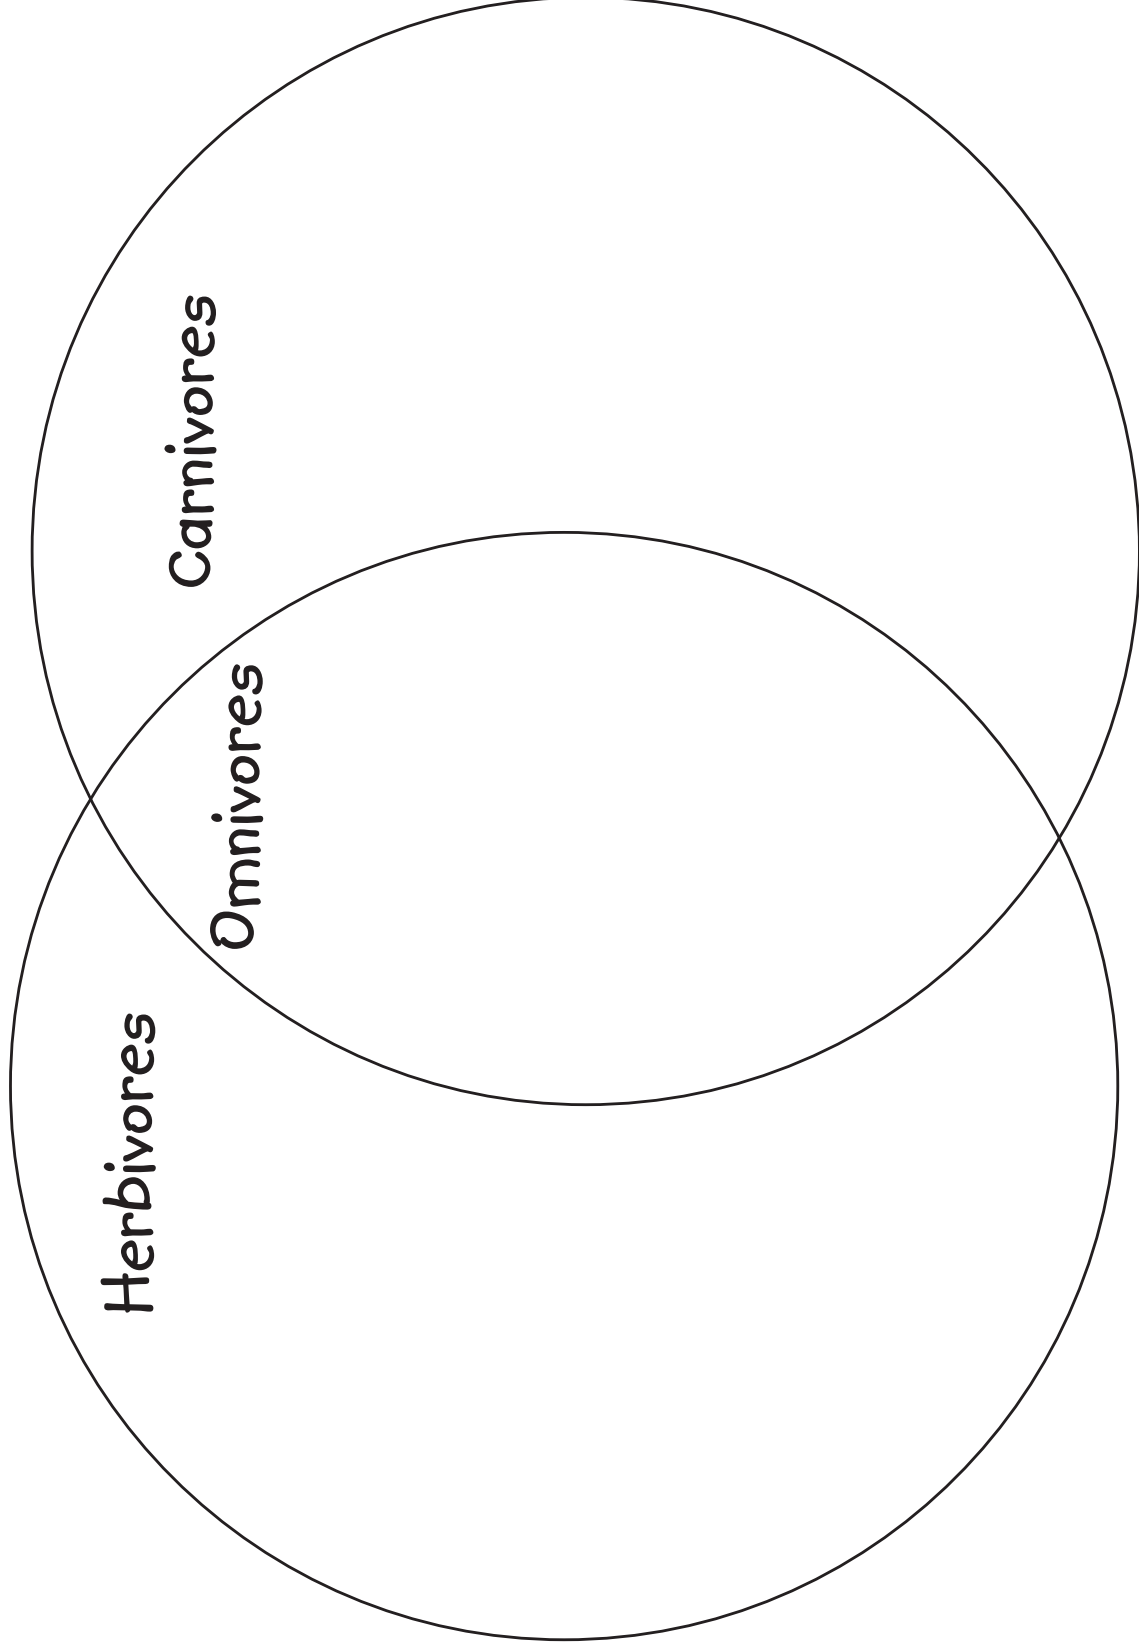

Chicken

Try sorting the animals in the pictures into
herbivores, carnivores and omnivores.
Write the animal's name in the correct
section on the Venn diagram.

Name Date

- If you have a pet, what do you feed it?

- Is it a herbivore, carnivore or omnivore?

Add your pet to the Venn diagram.

- Where does your name go on the diagram?
