

## Weekly Newsletter – Friday, 3rd July 2020

### Message from the Headteacher

Thank you for your continued support during these different and difficult times.

Children at school continue to complete the same work as that which is set for home learning – we have seen and heard lots of pirates in some of our bubbles this week!

With the publication of the latest Government guidance for schools for full opening published yesterday we are able to start working on our plans for the whole school being back in September; something we are all looking forward to. I will write to you again with detailed plans when these have been finalised.

### Staff Training Day Wednesday 22<sup>nd</sup> July 2020

Please note that schooling – whether at home or school – will finish on Tuesday 21<sup>st</sup> July. The training day we had scheduled for May did not happen so we will be having this at the end of this academic year so that we can work on our preparations for September.

Helen Comfort

### Message from the Class Teacher

Hello Class 4,

As there is not much of this school year left before the summer holiday it is important now that you complete the home learning set by us. If you are having trouble accessing the learning, or have any concerns or worries, then do email us and we will be happy to help you. Also, don't forget to keep up with your reading as this is very important. Just a few minutes every day will make all the difference.

As you are aware, we are both retiring at the end of term so we would just like to say a big 'thank you' to all of you who have worked so hard and sent in your wonderful work for us to see. Obviously, we are sad that we are leaving under such circumstances and did not spend a lot of time with you personally. However, we wish you all the very best in everything you do in the future and I am sure that the teachers will keep us informed of your progress. Take care and stay safe.

Mrs Norley and Mr Ball

### The Week Ahead!

#### Week commencing 6<sup>th</sup> July 2020

In the mid-1800s, there were about four million slaves living in the United States. They escaped to freedom, traveling on what was called the 'underground railroad'. The underground railroad wasn't a real railroad; it was the secret ways slaves made their way from the south to the north of America. We will be looking at the remarkable story of a man who did just that. I hope you find his story and work as fascinating as I did.

In Maths you will be investigating angles, triangles and quadrilaterals. For science you will be researching the causes and treatment of tooth decay as well as considering how to conduct a scientific enquiry.

In History, we will be looking at Julius Caesar and the challenge this week is for you to design and make your own Roman jewellery.
