*'For Learning That Lasts A Lifetime'*

7<sup>th</sup> March 2022

Dear Parent/Carers of Class 6,

On Thursday 10<sup>th</sup> March as part of our 'Evolution and Inheritance' science unit, the children will be creating their own family tree in their science books. We will then be looking at physical features that may have been inherited across the family tree e.g. eye colour, hair colour, nose shape etc.

If you have any photographs that you could send in to school with your child on Thursday, this would be helpful for the lesson. We will be looking at the three most recent generations (child and siblings, parents and grandparents). If you do provide photographs, they will be cut up and stuck into books so please only provide photographs of family members if you are happy for them to be used in this way.

If you have photographs but no access to a printer, please feel free to email your photographs to [secretary@st-margarets-dover.kent.sch.uk](mailto:secretary@st-margarets-dover.kent.sch.uk) and I can make sure these are printed in time for the science lesson. Please do not worry if you do not have photographs, your child will be able to draw themselves and their family members instead.

Yours sincerely

*L. Brett*

Miss L Brett

Class 6 Teacher
