

English

We will be reading an exciting adventure story; **The Secrets of a Sun King** about a girl from London who becomes an unlikely heroine in a quest to break an ancient curse that threatens her family. Her quest takes her to Egypt. She forms good friendships and solves mysteries about her life and the life of the young pharaoh, Tutankhamun, who lived 3000 years ago. We will use this text to inspire us when we create our own poetry, instructions and historical stories.

DT – Tomb builders

This project teaches pupils about simple machines, including wheels, axles, inclined planes, pulleys and levers, exploring how they helped ancient builders to lift and move heavy loads.

RE

We will be focusing our learning to answer: Why is Jesus inspiring to some people? Why do some people think that life is a journey and what significant experiences mark this?

PSHE

Pupils will learn how to build positive, healthy relationships and how they can positively cope with change as they grow up.

Music

Pupils will focus on learning to follow a musical score, reading music and playing our cornets.

Maths

We will further develop our multiplication knowledge together with learning how to compare and order decimals. We will also learn more about how to tell the time. We will develop our understanding of decimals, money, shape, statistics, position and direction.

Badgers Class Learning Overview Terms 5 & 6 2025/26

History

In our **Ancient Civilisations** project, we will learn about the history of three of the world's first ancient civilisations: ancient Sumer, ancient Egypt and the Indus Valley civilisation. We will learn about the rise, life, achievements and eventual end of each civilisation.

Science

In our **Electrical Circuits and Conductors** project, pupils will learn about electrical appliances and safety. They will also construct simple series circuits and name their parts and functions, including switches, wires and cells. Pupils will have opportunities to investigate electrical conductors and insulators and identify common features of conductors. It also teaches children about programmable devices. They combine their learning to design and make a nightlight.

Computing

We will learn about logo software and its programming. We will also learn how to create music, how to make music.

Art & Design – Islamic Art

This project teaches children about the features of **Islamic art**. They make geometric patterns and motifs on paper, with fabric and in clay. They use their learning to create a high relief clay tile, decorated with geometric patterns.

PE

We will be learning some exciting skills this term during our Parkour sessions. We will also be learning to develop our athletics, hockey and rounders skills further.
